

About the journal

Hepatoma Research (*Hepatoma Res*, <https://hrjournal.net>, online ISSN: 2454-2520) is an international peer-reviewed, gold open access, online academic journal founded by OAE Publishing Inc. (www.oaepublish.com) in April 2015. The journal aims to provide the best academic sharing and exchanging platform in the field of liver cancer, including its occurrence, development, diagnosis, and treatment. The coverage also extends to other basic and clinical studies related to surgery, internal medicine, cell biology, pathology, pathophysiology, immunology, genetics, pharmacology, etc. The journal was accepted for Scopus and CAS.

Journal Advantages

- Fast and rigorous peer review to ensure and improve the quality of your publications.
- Various discounts in Article Processing Charge.
- Multiple social media platforms to promote your papers widely.
- Join online international webinars for free to share and communicate with international outstanding scientists.
- Best Paper Awards will be given annually.
